6th Grade Genre Unit:

Becoming a Teacher of Writing in Elementary Classrooms Donna Kalmbach Phillips, Mindy Legard Larson, 2015-12-22
Becoming a Teacher of Writing in Elementary Classrooms nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini lessons, teacher and peer conferencing, guided writing, and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, Problematising Practice, classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, *Becoming a Writer*, gives readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer.

Ann Humes, 1987
Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11
This book presents a curricular framework for students, grades 6-12, that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading in Grades 6-12* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits, as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century.
