Secure Data Management, 2005. *Advanced Information Systems Engineering* Gerard M. Wijers, Sjaak Brinkkemper, Anthony I. Wasserman, 1994. This volume presents the proceedings of the sixth International Conference on Advanced Information Systems Engineering held in Utrecht, The Netherlands in June 1994. The 30 contributions by researchers from industry and academia and by ambitious professionals were selected from a total of 130 submissions after a highly competitive refereeing process. The papers are organized in sections on development process, support workflow management, management and quality, object oriented requirements engineering, behavioural modelling, advanced development tools, reuse, formal IS modelling, method engineering and advanced database engineering. In total, the volume gives a thorough state of the art report on current research and advanced applications in advanced information systems engineering. PUBLISHER'S WEBSITE: *Advanced Information Systems Engineering*, 1994. *Business Process Management* Richard Hull, Jan Mendling, Stefan Tai, 2010-08-25. The BPM Conference series has established itself as the premier forum for researchers in the area of business process management and process aware information systems. It has a record of attracting contributions of innovative research of the highest quality related to all aspects of business process management including theory, frameworks, methods, techniques, architectures, systems and empirical findings. BPM 2010 was the 8th conference of the series. It took place September 14-16, 2010 on the campus of Stevens Institute of Technology in Hoboken, New Jersey, USA, with a great view of Manhattan, New York. This volume contains 21 contributed research papers that were selected from 151 submissions. The thorough reviewing process, where each paper was reviewed by three to five Program Committee members followed in most cases by in-depth discussions, was extremely competitive with an acceptance rate of 14%. In addition to the contributed papers, these proceedings contain three short papers about the invited keynote talks. In conjunction with the main conference, nine international workshops took place the day before the conference. These workshops fostered the exchange of fresh ideas and experiences between active BPM researchers and stimulated discussions on new and emerging issues in line with the conference topics. The proceedings with the papers of all workshops will be published in a separate volume of Springer's Lecture Notes in Business Information Processing series. Beyond that, the conference also included a doctoral consortium, an industry program, roundtable discussions, tutorials, panels and demonstrations. **Proceedings,**
