When you use this guide you will get a basic overview of the CLEP, a look at the general examinations and the vast number of subject specific exams, tips for registering and preparing for the CLEP and a guide to interpreting your test scores. This is followed by extensive reviews of the five CLEP general examinations with pre and post tests and subject matter overviews that will help you pinpoint your strengths and weaknesses. The Appendix will go into detail about a number of CLEP subject exams. *Tests* Richard C. Sweetland, Daniel J. Topical arrangement under 3 main sections of psychology, education and business. Each entry gives test name, associated personal names, intended age group, purpose, description, time range, scoring, cost and publisher. Indexes by test titles, authors, publishers, visually impaired tests and scoring services. **Teaching Chemistry Around the World** Björn Risch, 2010 As teachers we often tend to expect other countries to teach chemistry in much the same way as we do but educational systems differ widely. At Bielefeld University we started a project to analyse the approach to chemical education in different countries from all over the world. *Teaching Chemistry around the World* 25 countries have participated in the project. The resulting country studies are presented in this book.
