

2000 Expedition Problems

David Stevenson

2000 Expedition Problems:

Environmental Problems of Central Asia and their Economic, Social and Security Impacts Jiaguo Qi, Kyle T. Evered, 2008-10-11 Over the last 60 years we have recognized increasingly that our world is connected and the impacts of environmental catastrophes and economic crises in one region of our world have far reaching and long lasting consequences globally Central Asia is a developing region with great potential but there are valid concerns that current resource management practices are not sustainable particularly with regard to the management of water resources Recent changes in social structures accompanied by regional climate change have caused substantial environmental changes leading to security concerns in the region As a result the local economy has been significantly impacted to the extent that the potential for social unrest is of great concern This book explores new technologies and adaptation strategies to mitigate these environmental problems and cope with continued environmental change with the ultimate goal of promoting sustainable growth and improved quality of life in the region

Tilting at Mountains Pasaban Edurne, 2014-05-21 The author reveals the demons that drove her to extreme physical accomplishments at the cost of great suffering story of adventure and personal growth Pasaban is one of the best high altitude climbers in the world today On May 17 2010 a 37 year old Spaniard named Edurne Pasaban became the first woman to climb all fourteen peaks higher than 8 000 meters This record breaking accomplishment put the Basque woman on National Geographic's 2010 Adventurers of the Year list The next year both The Alpinist and Outside magazines placed her on their Adventurers of the Year lists too Pasaban's accomplishment did not come without controversy Another woman Korean climber Oh Eun Sun claimed to have completed the peaks a few weeks earlier Later inquiries revealed that Oh Eun Sun had failed to summit Kangchenjunga in 2009 and her claim was eventually withdrawn leaving Edurne as the clear victor But how did she get there Published for the first time in English Tilting at Mountains tells Edurne's heartfelt and deeply personal story She details not only how she came to climb the 8 000 meter peaks the competitive nature of her Basque heritage played a role as did admittedly an interest in handsome climbing guides but also how her love for the mountains pulled her from a deep soul crushing depression The book covers her climbs on all the 8 000 meter peaks some of which were almost cakewalks while others were climbed at great cost including the loss of close friends
