

Incoming 7th Grade Summer Math Packet

Students Entering 7th Grade

Students who just completed 6th grade are being assigned to math placed for over the summer to make sure they are prepared for 7th grade. This is not a placement test, but a placement assignment to provide an opportunity for students to review what they learned in 6th grade and to prepare for 7th grade. Each year students return from the previous year's work in math. These particular assignments will focus on the skills learned in 6th grade, and will be reviewed for 7th grade. These skills are part of the standards for 7th grade, and students will be assessed on these skills in 7th grade. It is expected that other students to complete work on these skills in 6th grade, and will bring these skills to 7th grade.

Students should read the following sections: **Whole Numbers** (each page) to review the basic concepts of whole numbers and operations. Khan Academy has an extensive **whole numbers** for **Whole Numbers** and **operations**, starting with **practicing** problems.

Please begin work in the assigned class now. When you are finished, please follow the steps back to [Index](#).

Students will receive data to print for the first week of school. It has several skills to review and practice for 7th grade. Good luck because Khan Academy [practices](#) and has [resources](#) for most topics. **Whole Numbers**, **Operations**, **Algebraic Expressions**, **Geometry**, **Statistics**, **Probability**, **Practical Problems**.

This 6th Grade Summer packet must be returned to the teacher of 7th grade the first day of school. It will count as a project grade for Math 7 Period 1, and we will review the material during the first few weeks of school.

Should you need additional help or resources, please feel free to contact [Mr. C](#). I will be available during the summer.
