Parliament: House of Commons: Communities and Local Government Committee, 2013-03-27 From 1 April 2013 local government will have a responsibility to improve the health and wellbeing of local people Councils are well placed to make the most of a move away from a medical model of health based on clinical treatment to a social model based on health promotion protection and disease prevention Central to the new system will be Health and Wellbeing Boards whose members include councillors GPs directors of local services and community groups They will need to focus on health promotion among all age groups With few powers and no budget to commission services themselves they will have to display leadership build relationships and use their influence locally to turn their health and wellbeing strategies into reality Health and Wellbeing Boards will be part of a complex new structure and it is still unclear who will be in charge locally in the event of a health emergency New arrangements for screening and immunisation services lack a local dimension These services along with public health services for children up to five years old and childhood immunisation services could be devolved to public health staff within local government under Directors of Public Health The Committee points to weaknesses in the grant formula and the Health Premium and calls on the Government to provide local authorities with community budgets to direct resources at people and places rather than organisations The Government also needs to address concerns about local authority and NHS access to each other's data     **Cook's Continental Timetable** ,1987     **Turkey** International

Monetary Fund. Fiscal Affairs Dept., 2017-07-18 This paper discusses findings of the evaluation of fiscal transparency in Turkey As a result of several reforms Turkey has made significant progress against the 36 principles of the IMF's new Fiscal Transparency Code Of the 36 principles in the Code Turkey now meets 10 principles at the basic level 13 principles at the good level and 6 principles at the advanced level Fiscal transparency practices are strongest in the area of fiscal reporting Moreover in 5 of the areas where Turkey's transparency practices do not currently meet basic practice this could be readily addressed by publishing data that are already collected for internal management purposes     **Annual Report on**

**The Times of Their Lives** A. W. R. Whittle, 2018 The Times of their Lives explains how archaeologists can now move away from thinking about history in terms of thousands of years to periods from one or two centuries down to lifetimes and generations a little more than two decades This vastly improved precision comes from the application of Bayesian chronological frameworks for the interpretation of radiocarbon dates If they do the right things archaeologists in general and prehistorians in particular need not confine themselves any longer to the long term which has often been seen as the defining currency of the discipline 0Many prehistorians are still uncomfortable with the choice of narratives now available or have not yet critically rethought old habits This book will show how temporally much more precise accounts of the past can be achieved across a broad range of contexts and situations It offers a series of case studies across much of the continent to provide much more precise timings of key features and trends in the European Neolithic sequence than are currently available and to construct much more precise estimates of the duration of events and phenomena From these there is the possibility to open up new insights into the tempo of change through the detailed study of selected sites and situations across the span of the European Neolithic from the sixth to the early third millennia cal BC At stake is our ability to study the lives of Neolithic people everywhere at the scale of lifetimes something unimaginable even a few years ago
