Mobile Learning in Higher Education in the Asia-Pacific Region Angela Murphy, Helen Farley, Laurel Evelyn Dyson, Hazel Jones, 2017-07-06 If mobile technologies are to be effectively used in education how do we best implement sustainable mobile solutions for teaching and learning The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments Authors from sixteen countries across the Asia Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives These projects focus on a variety of aspects of mobile learning innovation from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems to the large scale interuniversity implementation of technologies and pedagogies to support mobile learning Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system encompassing the student perspective the educator perspective technical processes policies and organisational strategy and leadership The book also offers a unique perspective on the integration of mobile learning innovations within the educational political and cultural environments of Asia Pacific countries

Multidisciplinary Applications of Deep Learning-Based Artificial Emotional Intelligence Chowdhary, Chiranjilal, 2022-10-21 Emotional intelligence has emerged as an important area of research in the artificial intelligence field as it covers a wide range of real life domains Though machines may never need all the emotional skills that people need there is evidence to suggest that machines require at least some of these skills to appear intelligent when interacting with people To understand how deep learning based emotional intelligence can be applied and utilized across industries further study on its opportunities and future directions is required Multidisciplinary Applications of Deep Learning Based Artificial Emotional Intelligence explores artificial intelligence applications such as machine and deep learning in emotional intelligence and examines their use towards attaining emotional intelligence acceleration and augmentation It provides research on tools used to simplify and streamline the formation of deep learning for system architects and designers Covering topics such as data analytics deep learning knowledge management and virtual emotional intelligence this reference work is ideal for computer scientists engineers industry professionals researchers scholars practitioners academicians instructors and students

ECSM2016-Proceedings of the 3rd European Conference on Social Media Christine Bernadas, Delphine Minchella, 2016-06-21

Universities as Living Labs for Sustainable Development Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Armin da Do Paco, 2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the

implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development

A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond Zakeera Docrat, Russell H Kaschula, Monwabisi K Ralarala, 2021-06-02 *A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond* is an interdisciplinary publication located in the discipline of forensic linguistics language and law This handbook includes varying comparative African and global case studies on the use of language s in courtroom discourse and higher education institutions Kenya Morocco Nigeria Australia Belgium Canada and India These African and global case studies form the backdrop for the critique of the monolingual English language of record policy for South African courts the core of this handbook discussed in relation to case law and the beleaguered legal interpretation profession This handbook argues that linguistic transformation and decolonisation of South Africa s legal and higher education systems needs to be undertaken where legal practitioners are linguistically equipped to litigate in a bilingual multilingual courtroom that enables access to justice for the majority of African language speaking litigants enforcing their constitutional language rights

Online around the World Laura M. Steckman, Marilyn J. Andrews, 2017-05-24 Covering more than 80 countries around the world this book provides a compelling contemporary snapshot of how people in other countries are using the Internet social media and mobile apps How do people in other countries use the social media platform Facebook differently than Americans do What topics are discussed on the largest online forum one in Indonesia with more than seven million registered users Why does Mongolia rate in the top ten countries worldwide for peak Internet speeds Readers of *Online around the World* A Geographic Encyclopedia of the Internet Social Media and Mobile Apps will discover the answers to these questions and learn about people s Internet and social media preferences on six continents outside of the online community of users within the United States The book begins with an overview of the Internet social

media platforms and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today The country specific entries that follow the overview provide demographic information and describe specific events influenced by online communications allowing readers to better appreciate the incredible power of online interactions across otherwise unconnected individuals and the realities and peculiarities of how people communicate in today s fast paced globalized and high technology environment This encyclopedia presents social media and the Internet in new light identifying how the use of language and the specific application of human culture impacts emerging technologies and communications dramatically affecting everything from politics to social activism education and censorship

Marine Carotenoids Tatsuya Sugawara,Takashi Maoka,2021-01-22 Carotenoids represent a large group of isoprenoid structures with many different structural characteristics and biological activities They are the most important of the naturally occurring pigments and are responsible for the various colors of different fruits vegetables and plant parts Marine carotenoids and their unique structures are responsible for the color of many fish shellfish and algae However while there have been many papers and reviews on carotenoids of terrestrial origin there has been relatively little research conducted on the impact of marine carotenoids on human health Recent research efforts have revealed that marine carotenoids have strong biological activity affecting human health and are candidates for nutraceuticals This Topical Collection of Marine Drugs is dedicated to marine carotenoids and will focus on the benefits of carotenoids for human beings For a better understanding of the physiological effects of marine carotenoids this collection should include the most recent developments in the presence analysis chemistry and biochemistry of marine carotenoids
