**Gert Biesta**

## Abma Past Papers 2013:

Gender Inequality in Our Changing World Lori Kenschaft, Roger Clark, Desiree Ciambrone, 2015-07-24 Gender Inequality in Our Changing World A Comparative Approach focuses on the contemporary United States but places it in historical and global context Written for sociology of gender courses this textbook identifies conditions that encourage greater or lesser gender inequality explains how gender and gender inequality change over time and explores how gender intersects with other hierarchies especially those related to race social class and sexual identity The authors integrate historical and international materials as they help students think both theoretically and empirically about the causes and consequences of gender inequality both in their own lives and in the lives of others worldwide **Educational Research** Gert

Biesta, 2020-03-19 With so much technical information about research methods it is easy to lose sight of the bigger picture of why we carry out educational research and where and how research might contribute to the improvement of education Educational Research An Unorthodox Introduction steps you through the wider social and political contexts of educational research focusing on fundamental questions such as what education actually is and what it is for In doing so the book raises questions that more orthodox introductions to the theory and practice of educational research often leave aside Gert Biesta covers a range of key issues which permeate any educational research project including the roles of theory in research what it means and takes to improve education the nature of educational practice the history of educational research and scholarship the connection between research professionalism and democracy and what the social and political dimensions of academic publishing are Each chapter includes a set of questions to stimulate further discussion **Translational**

**Cardiology** Jeffrey A. Bakal, Michael Gibson, Adam E.M. Eltorai, 2025-02-01 Translational Cardiology provides a cardiology specific instructional guide to translational medical research that will serve as a practical step by step roadmap for taking a biomedical device potential therapeutic agent or research question from idea through demonstrated clinical benefit

Fundamentally the volume aims to help bridge the gap between current research and practice Written by a team of expert medical biomedical engineering and clinical research experts in cardiology this book provides a clear process for understanding designing executing and analyzing clinical and translational research Focuses on translational cardiovascular research covering the principles of evidence based medicine and applies these principles to the design of translational investigations Provides a practical straightforward approach that will help aspiring cardiovascular researchers navigate challenging considerations in study design and implementation Details valuable discussions of the critical appraisal of published studies in cardiology allowing the reader to learn how to evaluate the quality of such studies with respect to measuring outcomes and to make effective use of all types of evidence in patient care **Shock of the New** Chad Udell, Gary Woodill, 2019-04-02 Find the Leading Edge in a Disrupted World Planning our response to disruption seems impossible Most new and emerging technologies have been in development for decades but as soon as they land on our doorstep they inspire

the shock of the new How do you as a learning professional prepare for what you don't know is coming How do you judge what is important and what is just a fad In Shock of the New The Challenge and Promise of Emerging Learning Technologies Chad Udell and Gary Woodill create a new framework for anticipating emerging learning technologies outlining six key perspectives you should consider with any new technology They examine some of the day's most commonly discussed emerging technologies and pose the questions that will point the way to your own strategy These insights aren't limited to specific applications they give you an approach you can apply to any new tech coming your way so you're always braced for the shock of the new Udell and Woodill optimistically point out that emerging technologies will help us make sense of our increasingly complex world many more changes will occur over the next decade so buckle up What was once science fiction has just become real and now is your opportunity to be on the leading edge
