## Aboriginal Backgrounds For Powerpoint:

**Indigenous Perspectives of North America** Judit Nagy, Enikő Sepsi, Miklós Vassányi, 2014-08-20 The present volume brings to North American Native Studies with its rich tradition and accumulated expertise in the Central European region the new complexities and challenges of contemporary Native reality. The umbrella theme Indigenous perspectives brings together researchers from a great variety of disciplines focusing on issues such as democracy and human rights, international law, multiculturalism, peace and security, economic and scientific development, sustainability, literature and arts and culture as well as religion. The thirty five topical and thought provoking articles written in English, French and Spanish offer a solid platform for further critical investigations and a useful tool for classroom discussions in a wide variety of academic fields. *Parole in Canada* Sarah Turnbull, 2016-10-25 Just as Canada's population has changed in the past four decades so too has its prison population. The increasing diversity among prisoners raises important questions about how we punish those who break the law. *Parole in Canada* is the first book to explore how concerns about Aboriginality, gender and the multicultural ideal of diversity have been interpreted and used to alter federal parole policy and practice. Using the Parole of Board of Canada as a case study this book shows how certain facets of offender differences are selectively included for accommodation while fundamental institutional structures, practices and power arrangements remain unchanged. Sarah Turnbull argues that as the current approach fails to challenge outdated notions about gender, race and aboriginality within the penal system instead of addressing concerns around diversity these measures end up contributing to further exclusion and discrimination within the system.

This self government aspirations, the intersection of women's rights and self government and international perspectives.
