

ABSENT COMPANIONS

After your age has gotten into double digits, and the first digit of the number is an 8, unless you have spent an awful lot of your time in prison, you have run through a lot of companions and made a lot of friends and acquaintances.

Not that the people you know today are any less interesting than those of other years, but a lot of the interesting ones have already gone to that great wood yard in the sky.

I take a drink to these vanished companions every night of my life partly in gratitude for having known them and partly for a selfish reason, namely, that I warm my id at their coals.

Brill's Companion to Classics in the Early Americas, 2021-08-30 Brill s Companion to Classics in the Early Americas illuminates the remarkable range of Greco Roman classical receptions across the western hemisphere from the late fifteenth to the early nineteenth century Bringing together fifteen essays by scholars working at the intersection of Classics and all aspects of Americanist studies this unique collection examines how Hispanophone Lusophone Anglophone Francophone and or Indigenous individuals engaged with Greco Roman literary cultures and materials By coming at the matter from a multilingual transhemispheric perspective it disrupts prevailing accounts of classical reception in the Americas which have typically privileged North over South Anglophone over non Anglophone and the cultural production of hegemonic groups over that of more marginalized others Instead it offers a fresh account of how Greco Roman literatures and ideas were in play from Canada to the Southern Cone to the Caribbean treating classical reception in the early Americas as a dynamic polyvocal phenomenon which is truly

transhemispheric in reach **The Anthem Companion to Karl Jaspers** Hans Joas, Matthias Bormuth, 2025-04-15 This collection of articles by an international group of leading experts has its special focus on the relevance of Karl Jaspers's philosophy for the social sciences. It also includes classical evaluations of Jaspers's thinking by renowned authors Talcott Parsons and Jürgen Habermas. Several chapters are devoted to the relationship between Jaspers and his teacher Max Weber, his famous student Hannah Arendt, and crucial figures in his intellectual world Wilhelm Dilthey, Georg Simmel. Others deal with his relevance for disciplines from psychiatry to the study of religion and the historical-sociological research about the Axial Age, a term coined by Jaspers. In his introduction editor Hans Joas tries to systematise Jaspers's relevance for the contemporary social sciences and to explain why Parsons had called him a social scientist's philosopher. The book promises to become an indispensable source in the re-evaluation of Jaspers's thinking in the years to come. *A Companion to School Classics* James Gow, 1888 *The Ladies' Companion*, 1842 *Squire's Companion to the Latest Edition of the British Pharma-copoeia* Sir Peter Wyatt Squire, 1916 **The Rod and Gun and American Sportsman**, 1873 **Translation of a Digest of the Burmese Buddhist Law Concerning Inheritance and Marriage** Manu, 1903 **Chapters from a Guianese Log-book, Or, The Folk-lore and Scenes of Sea-coast and River Life in British Guiana** Charles Daniel Dance, 1881 *A Companion to Old and Middle English Literature* Laura Lambdin, Robert Thomas Lambdin, 2002-06-30 Many of the contributors to this companion teach English at American universities.
