

Outline and Annotated Bibliography

The outline and annotated bibliography represent the part of the research process that you will use to complete your Research Paper.

The outline of your research paper will include three parts: Introduction, Body, and Conclusion.

1. Introduction
 - a. Topic Statement
 - b. Thesis that ties in to your Topic Statement
 - c. Preview of your main points
2. Body Section 1
This Section should identify what we know about the topic and what we do not know about it.
3. Body Section 2
The subsequent Body Sections should frame your argument for what needs to be done about your topic. This should be informed by your analysis of what we do and do not know in Section 1.
For each Body Section there should be a title instead of the words 'Body Section 1' that describes the Section. Under each title use the a. b. c. etc. format to give more detail on what supporting information you will use in that Section of your paper.
4. Body Section 3
5. Body Section etc...
Use as many Body Sections as you need.
6. Conclusion
 - a. Summarize your main points
 - b. Restate you thesis using different words than in the Introduction.
 - c. Your recommendations for the future of your topic

Excellent 90-100	A clear thesis is evident in the Introduction, followed by supporting Sections that reveal complexity, and a unique Conclusion including suggestions for the future.
Very Good 80-89	A thesis is evident in the Introduction, followed by supporting Sections that reveal complexity, and a clear Conclusion including suggestions for the future.
Good 70-79	A thesis is evident in the Introduction, followed by supporting Sections, and a Conclusion including suggestions for the future.
Below Expectations 60-69	The thesis is vague in the Introduction, supporting Sections do not represent a complete review of the topic, and the Conclusion has few recommendations for the future.
