Global Perspectives on Reproductive Rights and Policies Pucelj, Maja, Matusiak-Frącczak, Magdalena, 2024-11-29

Reproductive rights and policies seek to balance different human rights ethics and morals as well as technology. At the same time, they concern probably the most intimate sphere of human life. Issues related to reproductive rights are the subject of intensive public debate in which not only politicians but also many nongovernmental organizations (NGOs) and even religious groups take part. All of these actors present essential arguments which should be taken into account when discussing reproductive rights. *Global Perspectives on Reproductive Rights and Policies* comprehensively examines reproductive rights as an essential component of human rights. It offers an in-depth analysis of legal frameworks as well as the ethical implications and societal consequences associated with these rights. Covering topics such as abortion policies, legal frameworks, and women's rights, this book is an excellent resource for researchers, academicians, legal professionals, healthcare professionals, ethicists, policymakers, international organizations, and NGOs.

**Women's Sexual and Reproductive Health Across the Lifecourse** Shonali Choudhury, Jennifer Toller, Efraim, Mellissa Withers, 2017-09-19. This expansive survey spotlights pervasive issues affecting girls and women's sexual and reproductive health across the lifecourse. Research from diverse countries around the world analyzes the complex relationships among biological, psychological, sociocultural, and economic issues, particularly in terms of inequities as they shape women's lives. Major challenges and possibilities for intervention are examined in their national context and with their global implications, including child marriage, motherhood, reproductive care and access, fertility, childbearing, contraception, abortion, HIV, STIs, gender-based violence, sexual pleasure, and menopause. In these forceful dispatches, a consistent human rights perspective emphasizes women's control, autonomy, and agency in all stages of their lives. A sampling of topics covered: Girl child marriage, a persistent global women's health and human rights violation; Investigating challenges and resilience among women living with obstetric fistula in Kenya; A qualitative exploration of mainstream and social media reflections on abortion; A continuum of severity of sexual intimate partner violence among black women in the United States; Economic empowerment to improve sexual and reproductive health among women and girls. Summarizing an interdisciplinary field on research and practical levels, *Global Perspectives on Women's Sexual and Reproductive Health Across the Lifecourse* will be an invaluable text for undergraduate and graduate courses in a wide range of fields, including public health, global health, women's studies, sociology, anthropology, gender studies, and human rights.

**Reproductive, and Maternal Health Post Roe v. Wade** Lucy Ingram, Deborah L. Billings, Ndidi Amaka

Amutah-Onukagha, Andrea Swartzendruber, Chelsea Morroni, Stephen Kennedy, Ana Langer, Supriya Dinesh Mehta, Janet Seeley, 2024-10-07. In June 2022, the United States U.S. Supreme Court overturned *Roe v. Wade* (1973) with the *Dobbs v. Jackson Women's Health Organization* case, thereby eliminating the constitutional right to abortion. As a result, authority now resides

with individual states to regulate abortion access. Currently abortion is banned in several states, severely restricted in some and protected in others. While the impact of the Dobbs decision has yet to be fully realized, it has severe implications for sexual and reproductive health rights and justice, population health and health equity nationally and globally. The impact of the ruling is expected to exacerbate existing health disparities and produce new inequities in sexual reproductive and maternal health outcomes, disproportionately affecting pregnant people who are already minoritized or disenfranchised, e.g., people of color, people with low incomes, young people, people living in rural areas, immigrants, people who identify as LGBTQIA+, justice involved, and unhoused communities living in states where abortion access has been banned or restricted. This Research Topic aims to elucidate actual short term potential long term global and domestic health inequities produced by the Dobbs decision and to describe efforts and interventions designed and undertaken to reduce health impacts and inequities in advance or directly after the decision. Recent data from countries that have restricted access to abortion over the past 30 years reveal that such laws actually increase rates of unsafe abortion, which in many instances leads to pregnant people becoming severely ill or dying from preventable causes. In an era of maternal health crisis for people of color in the U.S. and other disadvantaged populations around the world, eliminating the constitutional right to abortion in the U.S. will have a reactionary impact on underserved and minoritized groups everywhere. The implications will be felt globally as the Dobbs decision has triggered the development of restrictive policies increasing inequalities by social and demographic characteristics. Many groups disproportionately experience social disadvantage, yielding socially distributed negative exposures including severely limited access to care. The goal of the article collection is to identify threats to results of and protections against inequities in reproductive health rights and justice. Devoting a Special Issue to this topic brings vital and robust discourse about reproductive justice and health inequity to the forefront of public health.

**Global Perspectives on Constitutional Law** Vikram Amar, Mark V. Tushnet, 2009. The authors introduce students to the various ways that nations other than the United States resolve contemporary constitutional questions. Covering both structural issues and individual rights, each chapter presents foreign case materials on a particular topic comparing U.S. and other nations' laws.

**The Sociocultural and Political Aspects of Abortion** Alaka Basu, 2003-01-30. Seeking to define the ways various cultures view pregnancy, miscarriage, and abortion, this multidisciplinary collection of essays seeks to illustrate how these views influence policy decisions and practices regarding abortion around the world. Putting questions of pro life and pro choice aside, the contributors provide demographic coverage of the issues involved and contextualize some of the personal realities that underlie the approximately 50 million abortions that are believed to take place yearly worldwide. While the political and social climates in which women seek abortions vary from place to place, many of the chapters try to understand the moral implications that guide the decision to end a pregnancy from the perspective of those who seek to do so. Focusing primarily on developing nations, this important contribution to the literature on abortion provides readers with a careful

overview of the different meanings attached to abortion depending on the cultural social and political climate Areas covered include Tanzania Bangladesh West Africa Ghana Romania Russia Mexico and Nigeria General chapters on induced abortion demographic research and abortion policy and social pressures to abort are also included This unique approach to the study of abortion will contribute to a greater understanding of a prominent social issue

Hofmann,1977    *Taiwanese Identity from Domestic, Regional and Global Perspectives* Jens Damm,Gunter Schubert,2007 The tension between Taiwan s globalization and its ongoing identity formation is clearly visible in the economic political and societal spheres of the island republic Against this background the authors of this volume deal with the following questions To what extent has Taiwan become part of the Greater China region and in that sense a part of China How successful have Taiwan s endeavors been to escape China assert its own identity and communicate this to the international community How does Taiwanese identity connect to its integration within Greater China and beyond that is to its being part of a gobalized
