Not All Dead White Men Donna Zuckerberg, 2018-10-08 Some of the most controversial and consequential debates about the legacy of the ancients are raging not in universities but online where Alt Right men's groups deploy ancient sources to justify misogyny and a return of antifeminist masculinity Donna Zuckerberg dives deep to take a look at this unexpected reanimation of the Classical tradition *New Philosophies of Sex and Love* Sarah LaChance Adams, Christopher M. Davidson, Caroline R. Lundquist, 2016-11-30 Our amorous and erotic experiences do not simply bring us pleasure they shape our very identities our ways of relating to ourselves each other and our shared world This volume challenges some of our most prevalent assumptions relating to identity the body monogamy libido sexual identity seduction fidelity orgasm and more In twelve original and philosophically thought provoking essays the authors reflect on the broader meanings of love and sex what their shifting historical meanings entail for us in the present how they are constrained by social conventions the ambiguous juxtaposition of agency and passivity that they reveal how they shape and are formed by political institutions the opportunities they present to resist the confines of gender and sexual orientation how cultural artefacts can become incorporated into the body and how love and sex both form and justify our ethical world views Ideal for students both in philosophy and gender studies this highly readable book takes us to the very heart of two of the most important dimensions of human experience and meaning making to the seductive and alluring confusing and frustrating realms of love and sex

Perspective Ellen Koskoff, 1987 The past fifteen years have been a time of intense scholarly interest in women resulting in an explosion of literature that has begun to reveal the overriding effects of gender on other cultural domains Affecting all aspects of culture issues of sexuality gender related behaviors and inter gender relations also have profound implications for music performance This volume represents an introduction to the field of women music and culture and in no way attempts to be comprehensive in its coverage nor conclusive in its implications For example Western classical music is not discussed here many large world areas are not covered nor does this volume present a comprehensive survey of all recent developments in feminist oriented anthropology What these essays do share is a focus on women s culture identity and musical activity either in socially isolated performance environments or within the public arenas shared by their male counterparts From the preface TV Guide ,2002 **Nintendo Power** ,2006 The executive's dek book; a practical manual of correct usage ,1944 **The Law Times** ,1896 *Public History, Private Stories* Graziella Parati,1996 In this important volume Graziella Parati examines the ways in which Italian women writers articulate their identities through autobiography a public act that is also the creation of a private life Considering autobiographical writings by five women writers from the seventeenth century to the present Parati draws important connections between self writing and the debate over women s roles both traditional and transgressive Parati considers the first prose autobiography written by an Italian woman Camilla Faa Gonzaga s 1622 memoir as her beginning point citing it as a central pre text Parati then examines the autobiographies of Enif Robert Fausta Cialente Rita Levi Montalcini and Luisa Passerini Through her discussion of these women s writings she demonstrates the complex negotiations over identity contained within them negotiations that challenge dichotomies between male and female maternal and paternal and private and public *Public History Private Stories* is a compelling exploration of the disparate identities created by these women through the act of writing autobiography
